

# Quality Products Dedicated to Safety, Efficiency, Economy

MAGNA hoist products are manufactured in Korea (ISO 9001, CE rated) and field tested in Korean heavy industry. They are currently in use by some of the world's largest contractors and fabricators on projects such as the Northern Alberta Oil Sands, Hanford spent nuclear fuel reclamation, Seattle Hwy 520 bridge, Alaskan Way Viaduct Tunnel under Seattle, new Intel plants in Portland and Phoenix, U.S. Naval Warfare Center in California and the Rocky Flats Nuclear deconstruction in Colorado.
